***Number the Stars* Story Continuation**

Due Friday, April 3, 2020

Imagine that it is 10-15 years after Ellen Rosen and her family escaped to Sweden. At this point in time, Annemarie Johansen and Ellen would be approximately 21-26 years old. Create a realistic story showing Annemarie and Ellen "running into" each other after their separation. It can take place in Sweden, Denmark, or even in the United States. How would they act towards each other? What would they say? How would they even recognize each other? Use your imagination and creativity to continue this story. You may include other characters from *Number the Stars* as well. Be sure to include dialogue between the characters.

Remember…. Try to continue this story as you think Lois Lowry would. Think about how Ellen and Annemarie may have changed during these 10-15 years. What would they be doing now? Would they be married? Would they have children? Would they have jobs? Ask yourself these questions to help formulate your story.

Remember…. Your story will be taking place somewhere in the 1950's, so be sure not to include any technology that did not exist at the time.

If possible, please type your story. If it is not possible to type, please write as neatly as possible.

Begin your story with these lines…..

The war has been over for many years now, and it has been a very long time since Annemarie last saw her best friend, Ellen. She promised Annemarie that, one day, she would see her again. Annemarie just never knew if that would ever come true.
