ST. MARGARET REGIONAL SCHOOL

Off-Site Learning Plan

Day 5	Language Arts	Math	Phonics	Reading	Religion	Music
Friday, April 10, 2020	Write spelling words 1 X. Children write 2 sentences using one spelling word and one sight in each sentence.	Use one of the Jack Hartman counting by 2's songs for movement between work. Calendar We worked with the calendar everyday so this should be an easy lesson. Pages 339 and 340 Workbook page 113 See note below day 5.	Recite the short vowel rhythm (Alligator Ann), and the long vowel rhythm Amy Ape, everyday. This is to help the children hear the difference. Play this game everyday You say one of the following words they will tell you if it is long or short a. angel (l) ax (s) anchor (s) acorn (l) apron (l) apple (s) I will add more words as we learn the other long vowels	Practice sight words And sentences on the back. Remember to practice the ones your child doesn't know. Wonders Practice Book Pages 253-256 Handwriting counts Remember a capital letter for the first word in a sentence. See if your child can rip out the story page and fold by his/her self. Read story.	Chapter 27 Easter It is still the Easter Season. Let's Celebrate Learn the song (prayer) on page 239 Draw signs of new life on page 240.	https://youtu.be/HdRkFFdkhm4

Due Dates and Other Information:

When writing spelling words remember to have your child fold the page and write their name and the date everyday. Remember this week the children are to write numbers 0 to 5 and then down the middle 6 to 10. If you want to change it up they can write 10 to 6 and then 5 to 0 down the middle. I have not been happy with some on the handwriting lately. Slow your child down there is no rush to get finished. They do not need to write the date sentence everyday. Children can reinforce correct spelling of number words by 'building' their number words once a day.

Have your child do one addition and one subtraction problem everyday using Ten-frames and 'bears'. We would do this everyday in school between the first and 2nd bell. It only takes a few mins. If you have flash cards give your child one of each a day. Please don't go over 10, or start with a number higher than 10. We will do that later. Please save another egg carton, if you can, and cut for a 2nd ten frame.

Jack Hartman counting, you do not always need to do this at math time. You can use it whenever your child needs to get up and move.

We have been practicing the days of the week in order. Saying "The seven days of the week are_____." Some children can read them and put the flash

cards I have in the correct order. We have also been working on the months of the year. "Saying the twelve months of the year are January, _____." A few children can also pick out the months we have been in school and read them. I used to have a CD with songs about the months and says, but it disappeared from my classroom. Trying to replace it.
